PROFESSIONAL SUMMARY

Senior Frontend Developer with 5+ years of experience building, migrating and modernizing production web applications with Angular, React/Next and Vue/Nuxt. Proven record leading greenfield frontend development, legacy migrations (AngularJS to React, Angular 8 to 20/21, Vue 2 to 3), and improving maintainability through testing, CI/CD, static analysis and code review. Combines product-minded delivery with strong UI implementation skills, attention to design detail, and pragmatic AI-assisted workflows for codebase analysis, refactoring and test generation.

SKILLS

Programming Languages:	TypeScript, JavaScript, HTML5, CSS3, Java, PHP
Frontend:	Angular, React, Vue.js / Vue 3, Next.js, Nuxt, Redux, Tailwind CSS, Sass, Angular Material, Bootstrap, Material UI, PrimeNG, Storybook
Testing / Code Quality:	Jest, Vitest, Karma/Jasmine, React Testing Library, Angular Testing Library, Cypress, ESLint, SonarQube
CI/CD & Tools:	Git, GitLab CI/CD, GitHub Actions, AWS Amplify, Bitbucket, Jira, GitHub/GitLab Issues, Docker, Figma, Sketch
Backend & Data:	REST APIs, OpenAPI, Node.js, Spring Boot, Hibernate, PostgreSQL, MySQL, MongoDB
AI-assisted Dev:	GitHub Copilot, MCP-based tooling, prompt engineering, repository instructions, codebase analysis, refactoring, test generation and CI/CD debugging
Practices:	TDD, DDD, SDD, SOLID, Scrum, code review, technical debt management, Clean Code, Agile

EXPERIENCE

CodiTramuntana

Feb 2023 - Present

Senior Frontend Developer

Girona / Remote

• Led frontend development of a real estate investment portal from greenfield build to production using Angular 16, TypeScript, Tailwind CSS, REST APIs and Karma/Jasmine; later migrated the project to Angular 21 and Jest.

• Led migration of a clinical-laboratory frontend from Angular 8 to Angular 20, modernizing architecture, dependencies and development practices in a high-quality environment.

• Migrated a legacy AngularJS application to React 18, mapping critical workflows, preserving expected behavior and moving components to a maintainable modern stack.

• Built a React 19 schema-driven frontend application where the backend provided component specifications and the frontend rendered the corresponding UI dynamically in real time.

• Migrated the frontend of an educational platform from Ruby on Rails views to React 19, rebuilding the educational-material editing experience with improved responsiveness and accessibility.

• Built a Vue 3 B2B platform from scratch and maintained/migrated a Vue 2 CMS to Vue 3 after two years of legacy maintenance.

• Embedded quality gates into regular delivery, including linting, unit tests, vulnerability checks, SonarQube/static analysis and CI/CD build validation.

• Coordinated frontend delivery through code reviews, branch control, build validation, deployment coordination and cross functional work with backend, UX and client stakeholders.

• Supported teammates through task breakdown, technical follow-up, implementation guidance and production-focused code review.

Bitbox

Jan 2022 - Feb 2023

Frontend Developer

Gran Canaria, Spain

• Modernized a label generation product by creating a new Angular 14 frontend integrated with a Spring backend.

• Delivered pixel-perfect printable label templates and UI components based on strict international brand guidelines using Sass and Bootstrap.

• Maintained production Angular 11 and AngularJS applications, implementing fixes, functional improvements and migration support toward Angular 14.

• Led frontend development of a React 17 digital-label product from scratch, integrating an internal component library.

• Mentored three teammates, assigned frontend tasks, reviewed code and coordinated delivery across the team.

Nacsport

Jan 2021 - Dec 2021

Frontend Developer

Gran Canaria, Spain

• Coordinated migration of corporate and product websites to Angular 12 with the backend team.

• Developed Angular 12 components and layouts using Angular Material and Sass to implement the redesigned web experience.

• Maintained legacy websites in HTML, CSS, Vanilla JavaScript, PHP and Couch CMS, delivering new features and campaign adaptations.

• Built frontend functionality for an internal video storage and sharing platform integrated into an ASP.NET application.

Disoft Servicios Informáticos

Oct 2020 - Nov 2020

Web Developer Intern

Gran Canaria, Spain

• Redesigned and updated a corporate website using WordPress and Elementor.

• Developed a gym user-management web application with HTML, CSS, JavaScript and PHP.

• Created an animated landing page for commercial campaigns using HTML, CSS and JavaScript.

EDUCATION

• **Specialization in Video Game and Virtual Reality Development:** IES El Rincón · 2023-2024

• **Higher Technician in Multiplatform Application Development:** IES El Rincón · Full-time studies · 2020-2023

• **Bachelor's Degree in Fine Arts:** Universidad de La Laguna · 2009-2013

CERTIFICATIONS

• **AI Tools Applied to Software Development**: Lemoncode · 2026
LLM fundamentals, context management, prompting strategies, IDE AI tools, agents, MCPs and AI workflow security.

AWARDS & RECOGNITION

• **2nd place, FemHack Vol.II** — international competition.

LANGUAGES

• Spanish: Native
• English: Professional fluency, B2
• German: A1 Goethe Institut
